GoviEx Uranium Inc.

Notes to the condensed interim consolidated financial statements

For the nine months ended September 30, 2017

(Unaudited – in U.S. dollars; tabular amounts in thousands except for shares and per share amounts)

1. Nature of operations and going concern

GoviEx Uranium Inc. (“**GoviEx**” or the “**Company**”) is a Canadian mineral resources company focused on the exploration and development of uranium properties in Africa. The head office, principal address, registered and records office of the Company is located at 999 Canada Place, Suite 654, Vancouver, British Columbia, Canada, V6C 3E1.

The condensed interim consolidated financial statements have been prepared on a going concern basis which assumes that the Company will realize its assets and discharge its liabilities in the normal course of business. Since inception to September 30, 2017, the Company has incurred cumulative losses of \$191.3 million (December 31, 2016 - \$188.0 million) with a working capital deficiency of \$5.0 million (December 31, 2016 - \$2.9 million).

Continuation of the Company as a going concern is dependent upon the confirmation of economically recoverable reserves, negotiation of the timing and terms of the Euro 7 million payment (\$8.3 million) in connection with the receipt of a mining permit relating to its Madaouela I Project as described in Note 4, and the ability of the Company to obtain further financing to develop its mineral properties. In the event that the Company fails to deliver a definitive feasibility study on its Madaouela project prior to December 31, 2017, the holder of the uranium loan has the right to demand full payment of principal and interest (Note 5). Management intends to raise funds through either equity/debt financing and/or joint venture arrangements. Although the Company has been successful in raising funds in the past, there can be no assurance that it will be able to do so in the future. The lack of sufficient committed funding for the next 12 months casts a significant doubt upon the Company’s ability to continue as a going concern. The Company has no source of revenue, and has significant cash requirements to maintain its mineral interests, meet its administrative overhead, and pay its liabilities.

Should the Company be unable to continue as a going concern, the net realizable value of its assets may be materially less than the amounts on the condensed interim consolidated statements of financial position. These condensed interim consolidated financial statements do not reflect adjustments to the carrying value and classification of assets and liabilities that might be necessary in the event of going concern and such adjustments could be material.

2. Basis of presentation

These condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (“**IFRS**”) applicable to the preparation of interim financial statements, including International Accounting Standard (“**IAS**”) 34 *Interim Financial Reporting*, using the same accounting policies as detailed in the Company’s audited consolidated financial statements for the year ended December 31, 2016.

The condensed interim consolidated financial statements do not include all of the information required for complete annual consolidated financial statements, and therefore should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2016 and the notes thereto.

These condensed interim consolidated financial statements include accounts of the Company and its subsidiaries. All amounts are presented in United States dollars (“\$”), which is the functional currency of the Company and each of the Company’s subsidiaries. References to CAD\$ are to Canadian dollars. All inter-company balances, transactions, and expenses have been eliminated.

Critical accounting estimates and judgments

The Company’s management makes estimates and uses judgments when determining the assets, liabilities and expenses reported in these interim financial statements. These estimates and judgments are reviewed on an ongoing basis based on historical experience, current economic conditions, and include expectations of future events that are believed to be reasonable under the circumstances. Actual outcomes could differ from these estimates. The critical estimates and judgments applied in the preparation of these interim financial statements are consistent with those applied and disclosed in Note 2 to the audited consolidated financial statements for the year ended December 31, 2016. The Company’s interim results are not necessarily indicative of its results for a full year.

GoviEx Uranium Inc.

Notes to the condensed interim consolidated financial statements

For the nine months ended September 30, 2017

(Unaudited – in U.S. dollars; tabular amounts in thousands except for shares and per share amounts)

3. Marketable securities

On March 9, 2017, the Company received 1,210,975 common shares of Kincora Copper Limited (“**Kincora**”), as a result of a debt settlement in relation to a series of loan arrangements with a related party for which the amounts were previously written off during the year ended December 31, 2010. Kincora is a Canadian publicly listed company on TSX-V under trading symbol of KCC.

These Kincora shares are recorded as marketable securities, classified as available-for-sale, and recorded at fair market value determined by reference to their closing share price at each reporting date. Any fair value gain or loss is recognized in the other comprehensive income (loss) during the period.

During the nine months ended September 30, 2017, \$502,033 was recorded as other income and \$167,268 loss was recognized as net change in fair value of marketable securities in the condensed interim statements of income (loss) and comprehensive income (loss).

4. Mineral properties

Niger

The Company’s primary asset is an advanced-stage exploration uranium property located in north central Niger.

On February 1, 2016, the Company announced that the mining permit for Madaouela I was granted by the Niger government. Under the terms of the 2007 Mining Convention with the Republic of Niger Ministry of Mines and Energy (“**Niger Ministry**”), the Company will be required to make a one-time payment of Euro 7 million (\$8.3 million) upon the publication of the official decree awarding the first mining permit issued. The Company will discuss with the Niger Ministry for the terms of this payment.

The exploration licenses application for Eralrar (submitted on November 22, 2012) and the renewals for Madaouela II, III, IV and Anou Melle were approved by Niger government in January 2016.

Mali and Zambia

As a result of the Rockgate acquisition that closed on June 10, 2016, the Company acquired a 100% interest in Mutanga property in Zambia, a 100% interest in Falea project in Mali, and 90% interest in Dome project in Namibia with a total fair value of \$3.7 million, of which \$2.3 million has been allocated to Mutanga, \$1.4 million to Falea and \$nil to Dome.

5. Uranium loan

Pursuant to a bond purchase agreement with Toshiba Corporation (“**Toshiba**”) in April 2012, the Company borrowed 200,000 pounds of uranium concentrate U_3O_8 (“**Uranium Loan**”) at an interest rate of 12% compounded annually. The Uranium Loan matures on April 19, 2020 subject to early redemption by Toshiba. The principal and interest are stated in pounds of U_3O_8 , and at maturity the Company will have to repay Toshiba a total of 495,193 pounds of U_3O_8 including interest accrued.

The Uranium Loan is secured by a floating charge on all Nigerien assets of the Company.

Toshiba has the right to demand repayment of the Uranium Loan and accrued interest if (i) the Company fails to deliver a definitive feasibility study relating to Madaouela Project prior to December 31, 2017, or (ii) the sum of the production and capital costs per pound of U_3O_8 , as estimated in a feasibility study prepared in respect of the Madaouela Project, is not lower than \$44 per pound.

GoviEx Uranium Inc.

Notes to the condensed interim consolidated financial statements

For the nine months ended September 30, 2017

(Unaudited – in U.S. dollars; tabular amounts in thousands except for shares and per share amounts)

The spot U₃O₈ price, published by Ux Consulting Company, LLC on a weekly basis, was \$20.25 per pound on September 25, 2017 (\$20.25 - December 26, 2016, \$23.75 – September 26, 2016):

	September 30,		December 31,		September 30,	
	U ₃ O ₈	2017	U ₃ O ₈	2016	U ₃ O ₈	2016
	Pounds	\$	Pounds	\$	Pounds	\$
Balance, beginning of period	341,244	6,910	304,682	10,511	304,682	10,511
Unrealized gain during period	-	(39)	-	(4,512)	-	(3,351)
	341,244	6,871	304,682	5,999	304,682	7,160
Interest accrued in period	30,375	654	36,562	911	27,121	720
Balance, end of period	371,619	7,525	341,244	6,910	331,803	7,880

6. Share purchase warrants derivative liability

Share purchase warrants issued with an exercise price denominated in a currency other than the Company's functional currency are considered derivative instruments. As such they are classified as financial liabilities measured at fair value and are re-measured each reporting period with all changes recorded as a component of net income (loss).

In connection with a non-brokered private placement closed in tranches on September 28 and November 3, 2015, the Company issued 22.3 million warrants to the unit holders. Each warrant entitled the holder to purchase one common share of the Company at an exercise price of CAD\$0.18 for a period of two years following the issuances.

The fair value was estimated at \$0.04 on the date of issue (September 30, 2017 - \$0.02, December 31, 2016 - \$0.02) by using the Black-Scholes option pricing model assuming an expected volatility of 75%, a risk-free interest rate of 0.50%, an estimated forfeiture rate of 0%, a dividend yield of 0%, and an expected term of two years (September 30, 2017 – 0.33 years, December 31, 2016 – 0.83 years).

The following table provides detail of the movement of the warrant liability:

	Number of warrants	Amount
Balance as December 31, 2015	21,935,296	55
Change in fair value estimates	-	448
Balance as December 31, 2016	21,935,296	503
Expiration	(16,228,177)	(313)
Change in fair value estimates	-	(78)
Balance as September 30, 2017	21,935,296	112

7. Share capital

The Company is authorized to issue an unlimited number of Class A and Class B common shares with no par value.

During the nine months ended September 30, 2017, the Company issued 8,487,150 common shares for gross proceeds of \$998,044 upon the exercise of 8,282,150 warrants exercised and 205,000 stock options.

GoviEx Uranium Inc.

Notes to the condensed interim consolidated financial statements

(Unaudited – in U.S. dollars; tabular amounts in thousands except for shares and per share amounts)

8. Share-based payments

a) Stock Options

A continuity summary of the stock option granted under the Company's stock option plan as of September 30, 2017 is listed as follows:

	Number of options	Weighted average exercise price (\$)
Outstanding, beginning of period	23,883,333	0.24
Granted	6,780,000	0.24
Exercised	(205,000)	(0.08)
Expired	(583,333)	(2.15)
Forfeited	(375,000)	(0.18)
Outstanding, end of period	29,500,000	0.21
Exercisable, end of period	14,253,750	0.28

The stock options outstanding and exercisable are listed as below:

Exercise price	Expiry date	September 30, 2017		December 31, 2016	
		Outstanding	Exercisable	Outstanding	Exercisable
\$ 2.15	June 4, 2017	-	-	250,000	250,000
\$ 2.15	August 27, 2017	-	-	333,333	333,333
CAD 0.11	December 31, 2017	2,800,000	1,400,000	2,800,000	-
CAD 0.27	April 1, 2018	500,000	250,000	-	-
CAD 0.32	March 17, 2019	300,000	100,000	-	-
\$ 2.15	June 19, 2019	1,040,000	1,040,000	1,040,000	780,000
CAD 0.30	January 28, 2020	2,225,000	1,668,750	2,450,000	1,225,000
CAD 0.10	November 19, 2020	6,150,000	3,062,500	6,475,000	3,237,500
CAD 0.12	June 20, 2021	10,505,000	5,237,500	10,535,000	2,633,750
CAD 0.32	March 17, 2022	5,980,000	1,495,000	-	-
		29,500,000	14,253,750	23,883,333	8,459,583

The weighted average fair value of options granted during the nine months ended September 30, 2017 was \$0.12 using the Black-Scholes model with the following assumptions:

	September 30, 2017	September 30, 2016
Annualized volatility	83%	83%
Expected life in years	5	5
Estimated forfeiture rate	0%	0%
Risk free interest rate	0.94%	0.66%
Dividend rate	Nil	Nil

GoviEx Uranium Inc.

Notes to the condensed interim consolidated financial statements

For the nine months ended September 30, 2017

(Unaudited – in U.S. dollars; tabular amounts in thousands except for shares and per share amounts)

b) Common Share Purchase Warrants

Common share purchase warrants outstanding are listed below:

Exercise price (\$)	Expiry date	Number of warrants		Acceleration price (CAD\$)
		September 30, 2017	December 31, 2016	
CAD 0.18	September 28, 2017	-	16,228,177	≥0.216
CAD 0.18	November 3, 2017	6,026,879	6,026,879	≥0.216
0.15 / 0.18	June 10, 2019	22,420,180	22,420,180	≥0.24
0.12 / 0.14*	June 10, 2019	33,280,072	41,297,322	≥0.20
0.075	December 19, 2019	1,753,500	2,018,400	NA
0.15	December 19, 2021	47,429,856	47,429,856	NA
0.15	December 23, 2021	2,570,144	2,570,144	NA
		113,480,631	137,990,958	

* Exercisable at \$0.12 until June 10, 2018, and \$0.14 thereafter

All the warrants issued prior to December 2016 are subject to an acceleration clause based on the Company's share prices closed at the threshold listed above for 15 consecutive trading days, which, if triggered, the Company may provide the warrants holders with written notices for 30 or 60 days to exercise those warrants under the original terms.

With respect to the warrants expiring on June 10, 2019 with \$0.15 exercise price, if they are not exercised after the acceleration notice is received, the exercise price will increase to \$0.18 with an expiry date of December 10, 2018.

Subsequent to the period end, 550,556 warrants were exercised at CAD\$0.18 and 5,476,323 warrants expired on November 3, 2017.

9. Exploration and evaluation

Exploration and evaluation expenses for the Company are summarized as follows:

	Three months ended September 30,		Nine months ended September 30,	
	2017	2016	2017	2016
	\$	\$	\$	\$
Salaries	176	213	622	470
Office expenses	170	132	404	357
Consultants	109	70	322	140

Travel	14	11	75	47
Regulatory fees	12	11	44	51
	261	293	1,217	962

11. Related party disclosures

Related parties include the board of directors and officers, close family members and enterprises that are controlled by these individuals as well as certain consultants performing similar functions.

Key management compensation

Key management includes the board of directors and the Company's Executive Chairman, Chief Executive Officer and Chief Financial Officer. Compensation awarded to key management is listed below:

	Three months ended September 30,		Nine months ended September 30,	
	2017	2016	2017	2016
	\$	\$	\$	\$
Salaries	143	115	418	391
Bonus	-	-	-	31
Committees' fees	-	-	80	16
Share-based payments	76	56	554	228
	219	171	1,052	666

In the event of change of control, the Chief Executive Officer is eligible to receive a one-time bonus equal to 0.5% of the net proceeds received by the Company at the closing of a change of control transaction. The timing, structure and payment of the bonus would be in the sole discretion of the Board of Directors of the Company.

Global Mining Management Corporation ("GMM")

GMM is a private company, incorporated in British Columbia, Canada, owned by its nine shareholders one of which is the Company. GMM provides general administration, finance and accounting, and corporate services to the Company on a cost recovery basis.

The following fees were incurred in the normal course of operations including the Chief Financial Officer charges:

Personnel	74	58	221	140
Corporate overhead	18	15	57	37
	92	73	278	177

As of September 30, 2017, \$30,654 (December 31, 2016 – \$23,627) was owed to GMM and included in the accounts payable and accrued liabilities of the Company.

12. Financial instruments

The board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company examines the various financial instrument risk to which it is exposed and assesses the impact and likelihood of those risks.

The fair value of financial instruments which trade in active markets is based on quoted market closing prices at the balance sheet date, thus are level 1 fair value measurement. The derivative liability is measured at fair value and categorized in level 3.

13. Segmented information

The Company has one business segment, the exploration of mineral properties, further subdivided into geographic regions. The Company's non-current assets are listed below:

	September 30, 2017			December 31, 2016		
	Long-term Deposits (\$)	Plant and Equipment (\$)	Mineral Properties (\$)	Long-term Deposits (\$)	Plant and Equipment (\$)	Mineral Properties (\$)
Canada	140	-	-	140	-	-
Mali	-	-	1,449	-	-	1,449
Niger	160	37	57,147	160	39	57,147
Zambia	-	39	2,315	-	49	2,315
	300	76	60,911	300	88	60,911

14. Commitments and contingencies

- The Company is required to incur certain amounts of exploration expenditures over the validity period of certain of its exploration licenses in Niger and Mali in order to maintain the licenses in good standing.
- The Company has received requests for payment of area taxes from the Niger government. The Company believes that the area tax of \$2.0 million per annum will become payable only once the Nigerien mining company is incorporated, which includes the conclusion of negotiation of the percentage shareholding of the Nigerien government.
- Although the Company has taken steps to verify title to mineral properties in which it has an interest, these procedures do not guarantee the Company's title. Such properties may be subject to prior agreements or transfers, or title may be affected by undetected defects. In addition to the above matters, the Company and its subsidiaries are also subject to routine legal proceedings and tax audits. The Company does not believe that the outcome of any of these matters, individually or in aggregate, would have a material adverse effect on its condensed interim consolidated net income (loss), cash flow or financial positions.

GoviEx Uranium Inc.

Notes to the condensed interim consolidated financial statements

For the nine months ended September 30, 2017

(Unaudited – in U.S. dollars; tabular amounts in thousands except for shares and per share amounts)

15. Subsequent event

- a) On October 30, 2017, the Company announced the completion of its acquisition of mineral interests of African Energy Resources Ltd. (“AFR”) in Zambia. Under the terms of the acquisition, GoviEx acquired AFR’s wholly-owned Zambian subsidiaries which hold Kariba Valley and Chirundu tenements in exchange of 3,000,000 common shares and 1,600,000 warrants of GoviEx. Each warrant is exercisable at US\$0.23 until October 30, 2020, subject to certain acceleration provisions.
- b) On November 15, 2017, the Company announced the renewal application for Agaliouk exploration license adjacent to the boundaries of the Madaouela project in Niger has been approved.

Management's Discussion and Analysis

Quarterly Highlights

As of November 17, 2017

Management's Discussion and Analysis ("MD&A") for GoviEx Uranium Inc., together with its wholly owned subsidiaries ("GoviEx" or the "Company") is prepared as of November 17, 2017 and relates to its financial condition and results of operations for the nine months September 30, 2017. It is intended to provide investors with a reasonable basis for assessing the financial performance of the Company as well as certain forward looking statements relating to its potential future performance.

This MD&A should be read in conjunction with the condensed interim consolidated financial statements September 30, 2017 as well as its audited annual consolidated financial statements December 31, 2016.

The Company reports its financial position, financial performance and cash flows in accordance with International Financial Reporting Standards ("IFRS"). All dollar amounts are expressed in U.S. dollars, unless otherwise noted. References to C\$ are to Canadian dollars. The first, second, third and fourth quarters of the Company's fiscal years are referred to as "Q1", "Q2", "Q3", and "Q4" respectively.

Description of Business

GoviEx is a company focused on the acquisition, exploration and development of uranium projects in Africa. The Company holds a 100% interest individually in its Madaouela project in Niger, Mutanga project in Zambia, Falea project in Mali and 90% interest in Dome project in Namibia. The Company's principal objective is to become a uranium producer through the continued exploration and development of its Madaouela project.

The Company is based in Vancouver, British Columbia, Canada; its common shares are listed on the TSX Venture Exchange ("TSX-V") under the symbol "GXU", and also trades on the OTC Markets OTCQB under the symbol "GVXXF".

Additional information related to GoviEx is available on the Company's website www.goviex.com or on SEDAR at www.sedar.com.

African Energy Transaction

The Company announced the execution of a definitive agreement (the "**Purchase Agreement**") with African Energy Resources Ltd. ("**African Energy**") to acquire African Energy's uranium mineral interests in Zambia (the "**Transaction**"). The Transaction is intended to unify prospective uranium properties adjacent to, and contiguous with, GoviEx's Mutanga mine permits in Zambia.

Under the terms of the Purchase Agreement, GoviEx acquired African Energy's wholly owned Zambian subsidiaries, Muchinga Energy Resources Limited, and Chirundu Joint Ventures Zambia Ltd., in exchange of 3.0 million common shares of GoviEx and 1.6 million common share purchase warrants of GoviEx.

Each share purchase warrant is convertible, for a period of three (3) years from the closing date of the Transaction, into one common share of GoviEx at a price per share equal to the United States dollar equivalent of 160% of the ten (10) day VWAP of GoviEx's common shares on the TSX-V calculated from the last trading day before the closing date of the Transaction. The Consideration Warrants include an acceleration clause which provides that if the closing price of GoviEx common shares on the TSX-V is equal to or greater than 190% of the

GoviEx Uranium Inc.

MD&A Highlights

For the three and nine months ended September 30, 2017

closing market price of GoviEx common shares on the TSX-V on the closing date of the transaction, for a period of fifteen (15) consecutive trading days, GoviEx may accelerate the expiry date of the Consideration Warrants to a date that is sixty (60) days from the date of delivery of the written acceleration notice to African Energy, failing which the Consideration Warrants will expire unexercised.

The Transaction closed on October 30, 2017. The transaction warrants are exercisable at \$0.23 until October 30, 2020, subject to the above acceleration provisions.

Results of Operations

During the three months ended September 30, 2017, the Company recorded a loss of \$0.76 million, year-to-date \$3.35 million, compared to the same period in 2016 of income of \$0.08 million and year-to-date \$0.01 million, respectively. Quarterly fluctuation in loss and comprehensive loss figures have mainly been driven by non-cash fair value on the uranium loan, derivative liability and share-based payments.

Uranium loan

Interest expenses and the balance of the uranium loan vary based on fluctuations in uranium price. Uranium price closed at \$20.25 on September 25, 2017 (December 26, 2016 - \$20.25) comparing to \$23.75 on September 26, 2016 (December 31, 2015 - \$34.5 per pound). As a result, \$0.05 million loss was recognized in three months ended September 30, 2017, with year-to-date gain of \$0.04 million.

Exploration and evaluation expenses

Exploration and evaluation expenditures can vary depending on the stages and priorities of the exploration program. The scale and nature of the Company's exploration activities have remained relative consistent over the periods presented.

Increase in exploration and evaluation during the three and nine months ended September 30, 2017 reflects a drilling program for Madaouela project in Niger and a RadonEx survey for Falea project in Mali, in addition to the maintenance costs associated with Zambia and Mali operations resulting from the Rockgate acquisition that closed on June 10, 2016.

General and administrative expenses

Increase in general and administrative expenses is predominately due to an implementation of the Company's marketing strategy and commitment to investor relations, with the Company maintaining its non-essential cost reductions. Increase in profession fees are related to legal costs for the African Energy acquisition, and the listing of the Company's shares on the OTCQB.

Effective February 1, 2017, the Company had engaged Palisade Global Investments Ltd. ("**Palisade**") to assist the Company's efforts to expand liquidity and investor awareness through focused marketing, distribution and research. The retainer fee is CAD\$10,500 per month for an initial period of seven months and thereafter on a monthly basis until terminated by either party. 500,000 incentive stock options were granted on February 1, 2017 for a period of 14 months at an exercise price of CAD\$0.27.

Share-based payments

On March 17, 2017, the Company granted 6,280,000 stock options to its directors, officers, employees and one consultant exercisable at CAD\$0.32 until March 17, 2022. 25% of the granted options were vested on the grant date, with 25% on each anniversary until fully vested.

GoviEx Uranium Inc.

MD&A Highlights

For the three and nine months ended September 30, 2017

10,535,000 stock options were granted on June 20, 2016 exercisable at CAD\$0.12, with the same vesting schedule as above until June 20, 2021.

Loss on derivative liability

Increases and decreases in the Company's stock price can have a significant impact on the value of the derivative liabilities issued by the Company in conjunction with a private placement closed in tranches in September and November 2015.

The Company's share price closed at CAD\$0.19 on September 30, 2017 comparing to CAD\$0.15 on December 31, 2016. 16,228,278 warrants expired unexercised on September 28, 2017 reducing the carrying value of the derivative to \$0.11 million as of September 30, 2017.

Summary of Quarterly Results

The following table sets forth a comparison of information for the previous eight quarters ending with September 30, 2017:

<i>(in thousands of U.S. dollars except for per share)</i>	Q3'17	Q2'17	Q1'17	Q4'16	Q3'16	Q2'16	Q1'16	Q4'15
	\$	\$	\$	\$	\$	\$	\$	\$

Income (loss) per share	(0.00)	0.00	(0.01)	(0.00)	(0.00)	(0.00)	0.00	(0.00)

Liquidity and Capital Resources

The Company is dependent on raising funds by the issuance of shares and debt arrangements in order to finance further development of its uranium properties and meet general and administrative expenses in the immediate and long term. Unless there is a significant financing transaction, total cash is expected to decrease from one period to the next.

Please refer to Note 1, Nature of Operations and Going Concern in the condensed interim consolidated financial statements for the nine months ended September 30, 2017 for details.

GoviEx Uranium Inc.

MD&A Highlights

For the three and nine months ended September 30, 2017

During the nine months ended September 30, 2017, the Company spent \$3.0 million towards operating activities (September 30, 2016 - \$2.0 million), and received \$1.0 million from warrants and stock option exercises.

The ability of the Company to continue its exploration and development activities is dependent on the continuing success of its uranium project development coupled with its ability to secure additional funding through equity, debt, joint venture or other means of financing.

Material increases or decreases in the Company's liquidity and capital resources will be determined by the success of the Company in renewing its mineral licenses, maintaining its mining permits and obtaining equity or other sources of financing.

Transactions with Related Party

The Company is a party to a shareholders' cost-sharing agreement with a private company, Global Mining Management Corp. ("GMM"), pursuant to which GMM provides the Company with furnished office space, equipment and communications facilities and the employment of certain corporate personnel in Vancouver, British Columbia.

All transactions with related parties acting in their capacity as officers and directors of the Company have occurred in the normal course of the Company's operations and have been measured at their fair value as determined by management.

Key management, consisting of personnel having authority and responsibility for planning, directing, and controlling the Company, includes board of directors, Executive Chairman, CEO and CFO.

Outstanding Share Capital

As of November 17, 2017, the Company has:

- 326,975,044 common shares issued and outstanding;
- 29,500,000 stock options outstanding with exercise prices ranging from CAD\$0.10 to \$2.15; and
- 114,530,075 share purchase warrants exercisable ranging \$0.075 to \$0.23 expiring from June 10, 2019 through December 23, 2021.

Contractual Obligations

The Company has no off-balance sheet arrangements, no capital lease agreements and no long-term obligations other than those contained in Note 14, Commitments and Contingencies to the condensed interim consolidated financial statements.

Proposed Transactions

As is typical of the mineral exploration and development industry, the Company periodically reviews potential acquisition, dispositions, investment, joint venture and other opportunities that could enhance shareholder value. Other than the Definitive Share Purchase Agreement with African Energy as disclosed herein, there are no proposed transactions that would be considered by management to constitute a material change in the affairs of the Company as at the date hereof.

Changes in Accounting Policies

The Company has not made any changes to its significant accounting policies, as described in Note 2 of the

GoviEx Uranium Inc.

MD&A Highlights

For the three and nine months ended September 30, 2017

financial statements for the year ended December 31, 2016. The adoption of narrow scope amendments to IFRS 12 - *Disclosure of Interests in Other Entities*, IAS 7 - *Statement of Cash Flows* and IAS 12 - *Income Taxes*, which were effective for annual periods beginning on or after January 1, 2017 did not have any material impact on the Company's condensed interim consolidated financial statements.

Critical Accounting Estimates

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures during the reporting period.

Although the Company regularly reviews the estimates and judgments made that affect the financial statements, actual results may be materially different. Please refer to Note 2 of the Company's 2016 audited consolidated financial statements for a description of the critical accounting estimates and judgment.

Financial Instruments

During the three and nine months ended September 30, 2017, there has been no change in the Company's financial instruments risks or its management approach to those risks.

Note to U.S. Readers

The Company uses Canadian Institute of Mining, Metallurgy and Petroleum definitions for the terms "measured resources", "indicated resources" and "inferred resources". U.S. investors are advised that while the terms "measured resources", "indicated resources" and "inferred resources" are recognized and required by Canadian regulations, including National Instrument 43-101 ("NI43-101"), the SEC does not recognize these terms. Accordingly, information contained in this MD&A contains descriptions of mineral deposits that may not be comparable to similar information made public by U.S. companies that are not required to comply with NI43-101 and that are subject to the reporting requirements under the U.S. federal securities laws and the rules and regulations thereunder. The SEC permits U.S. companies, in their filings with the SEC, to disclose only those mineral deposits that a company can economically and legally extract or produce. U.S. readers are cautioned not to assume that any part or all of the material in these categories will be converted into reserves. It should not be assumed that any part of an inferred mineral resource will ever be upgraded to a higher category.

Forward Looking Statements

The MD&A contains certain statements that may be deemed "Forward-Looking Statements." Forward-Looking Statements may include, but is not limited to, statements with respect to the future financial and operating performance of the Company, its subsidiaries and affiliated companies, its mining projects, the future prices of uranium, the estimation of mineral resources, the realization of mineral resource estimates, costs of production, capital and exploration expenditures, costs and timing of the development of new deposits, costs and timing of the development of new mines, costs and timing of future exploration, requirements for additional capital, governmental regulation of mining operations and exploration operations, timing and receipt of approvals, licences, and conversions under applicable mineral legislation, environmental risks, title disputes or claims, limitations of insurance coverage and the timing and possible outcome of pending regulatory matters. Often, but not always, forward-looking statements can be identified by the use of words such as "plans", "expects", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates", or "believes" or variations (including negative variations) of such words and phrases, or state that certain actions, events or results "may", "could", "would", "might" or "will" be taken, occur or be achieved. These statements reflect the Company's current expectations regarding future events and operating performance and speak only as of the date of this MD&A.
